1 cup milk

Preheat oven to 350 degrees F.

Mix together all the filling ingredients. Set the filling aside to draw out the juices. While the filling sits, melt the butter in a 13 x 9-inch baking dish, either in the oven or on the stove.

In another bowl, make the batter. Stir together flour, sugar, and baking powder, and add the milk. Mix until lightly blended. Spoon the mixture evenly over the melted butter. Don’t stir it — that would preclude the development of crunchy edges. Pour the peach filling evenly over the batter. Bake 45 minutes. As the cobbler cooks, the batter will ooze up and around the fruit, creating a moist, golden brown crust.

Serve the cobbler warm, preferably with vanilla ice cream.

**Peaches**
1/2 cup granulated sugar  
3 tablespoons water  
6 large ripe peaches, peeled, pitted, and cut into 8 wedges

Mango Meringue Pie

**Flaky Pie Dough**
3 tablespoons vegetable shortening  
1 1/2 cups all-purpose flour  
2 teaspoons granulated sugar  
8 tablespoons cold unsalted butter, cut into pea-size bits  
3 to 4 tablespoons ice water

Flatten the shortening between 2 sheets of wax paper to a thickness of 1/8 inch. Remove the top sheet and, with a butter knife, draw a crisscross pattern through the shortening to divide it into 1/2-inch squares. Freeze for at least 30 minutes.

In a large bowl, stir the flour and sugar together. Using a pastry blender, work the butter into the mixture until it resembles coarse meal. Quickly mix in the shortening squares. Sprinkle on the ice water and mix it in with your fingers just until the dough comes together into a ball. Wrap in plastic and refrigerate for at least 2 hours, or overnight.

On a lightly floured surface, roll the dough into a 12-inch circle about 1/2 inch thick. Fit it into a 9-inch pie plate. Fold the overhanging dough under itself and decoratively crimp it against the rim of the plate. Prick the bottom all over with a fork. Freeze for 30 minutes.

Set a rack in the middle of the oven and preheat to 400 degrees F. Line the pie shell with aluminum foil and weight down with dried beans or pie weights. Bake for 20 minutes. Remove the foil and weights, and bake for 8 minutes longer, or until very lightly browned. Transfer to a wire rack to cool.

**Mango Curd**
2 tablespoons cornstarch  
2 tablespoons fresh lemon juice  
3/4 cup water  
2 large eggs  
4 large egg yolks  
3 ripe mangoes, peeled and sliced  
4 tablespoons unsalted butter  
1/2 cup granulated sugar

In a medium bowl, whisk the cornstarch, lemon juice, and 1/4 cup of the water together until smooth. Whisk in the eggs and yolks. Purée the mangoes with the remaining 1/1 cup water in a food processor fitted with the metal blade. In a medium size enamel or glass saucepan, combine the mango purée, butter, and sugar and bring to a boil over medium heat. Whisking constantly, slowly drizzle half of the hot liquid into the cornstarch mixture. Return the mixture to the saucepan and cook, whisking constantly and scraping the bottom of the pan, until tiny bubbles boil up for 10 seconds. Strain the curd through a fine mesh sieve into the pie shell. Let cool for 1 hour, then refrigerate until chilled and set.

1/2 cup granulated sugar  
1/4 teaspoon salt

Remove from the heat and continue to whisk (you can switch to an electric mixer) until the egg whites hold stiff peaks. With the back of a spoon, spread the meringue on the top of the pie, making sure that the meringue touches the crust all around. Pull up wisps of meringue with the spoon as you go. Do not over-mix. Divide dough into 2 balls, seal in plastic wrap, and chill for at least 30 minutes before rolling out.

When chilled, roll each ball out to about 1/8-inch thickness on a lightly floured surface, to a size 2 inches larger than the pan into which it will be fitted (or cut dough into whatever size or shape desired). After bottom crust is fitted into pan, trim edges and finish as directed.

Easiest Piecrust

Makes two piecrusts.

5 cups all–purpose flour
1/4 teaspoon salt
3/4 pound very cold unsalted butter,
    cut into very small pieces
3 egg yolks
4 tablespoons ice water

Put the flour and salt in the bowl of the food processor fitted with a metal blade. Pulse a few times to combine. Begin to add the butter, and pulse until the mixture starts to look like coarse meal (10 to 15 pulses). Add the egg yolks, then slowly pour in the ice water while processing (no more than 20 seconds). Pulse until dough just comes together – do not let it form a ball. If it holds together when you pinch it, it's ready. Place the dough in a plastic bag, form it into a flat round (like a round loaf of bread), and chill it for at least one hour before rolling it out.
Easy Pastry

1 1/3 cups all-purpose flour
Dash of salt
1/3 cup vegetable oil
3 tablespoons milk

Put flour in pie plate. Make a well; add salt, oil and milk. Mix with a fork until dough forms a ball. Press out evenly over pie plate with hands.
Egg Pastry for Quiche Lorraine

1 1/4 cups all-purpose flour
1/4 teaspoon salt
1/4 cup butter
2 tablespoons vegetable shortening
1 egg, slightly beaten

In medium bowl, mix flour and salt. Using a pastry blender or two knives, cut in butter and shortening until mixture is crumbly.

Gradually add egg to flour mixture, stirring until dough is evenly moistened and begins to cling together. Shape into a flattened ball.

Roll out on a floured board or pastry cloth to about a 12-inch circle. Ease pastry into a 9 1/2-inch quiche pan. Trim edge to about a 1/2-inch overhang, then fold pastry under, even with top of dish.
Sift dry ingredients together. Cut shortening into dry ingredients until mixture is the consistency of coarse meal. Combine vinegar and egg and add enough water to make 1 cup liquid. Add liquid to dry ingredients and mix until dough forms a ball. Divide dough and pat out with hands into desired shape on floured pastry cloth or board or floured sheet of wax paper. Smooth with rolling pin. For baked shell, prick with a fork and bake at 450 degrees F for 12 to 15 minutes.

Keeps several months in freezer tightly wrapped. Yields 5 or 6 (9-inch) crusts.
Flaky Pie Crust

1/4 cup lard, chilled
1/4 cup unsalted butter, chilled
1/4 cup vegetable shortening, chilled
2 cups flour
1 teaspoon salt
5 to 7 tablespoons ice water

Using a food processor or a pastry blender, cut the lard, butter, and vegetable shortening into the flour and salt. Be careful not to overwork the dough. Add the water a few tablespoons at a time, until the dough just holds together. Divide the dough into two mounds, wrap them in plastic, and refrigerate them at least 30 minutes. If the pie crust is to be baked, preheat the oven to 400 degrees F.

On a floured board or pastry cloth, roll out the dough in a circle a couple of inches larger than the pie pan. To avoid stretching the dough excessively, roll it from the center outward, lifting the rolling pin after each stroke rather than rolling back over the dough in the opposite direction. Loosen the dough, drape it around the rolling pin, and center the crust over the pan, dropping it gently into place. Use the second mound of dough for the top crust. For a single pre-baked crust, price the dough in several spots. Cover the pie shell with foil, and weight the foil with dried beans or pie weights. Bake the crust for 10 minutes, and then lower the temperature to 350 degrees F and bake for an additional 15 minutes, or follow the directions in your pie recipe.
Food Processor Pastry

1 1/3 cups all-purpose flour
8 ounces cold butter, cut into small pieces
1 teaspoon salt (less if using salted butter)
1 tablespoon granulated sugar (optional)
1/4 cup ice water

Use the steel blade of food processor. Put all ingredients except ice water into work bowl. Process until mixture has consistency of coarse meal (5 to 10 seconds).

With machine running, pour ice water through feed tube in a steady stream. Stop processing as soon as dough forms ball to ensure tender, flaky pastry. This may be used immediately or frozen for later use.
Foolproof Meringue

1 tablespoon cornstarch
2 tablespoons cold water

Foolproof Piecrust

No matter how much you handle this dough (and you can beat it with your rolling pin if you like), it will always be flaky, tender and delicious. Scraps can be re-rolled if necessary and crust will never be tough. Dough can be left in the refrigerator up to 3 days. It remains soft and can be taken out and rolled at once, or it can be frozen until ready to use (thaw until soft enough to roll). Recipe makes two 9-inch double-crust pies and 1 pie shell or about 20 tart shells. Use standard measuring cups and spoons for measuring ingredients, leveling off top with edge of spatula. Give recipe your undivided attention.

4 cups flour (not instant or self-rising),
   lightly spooned into cup
1 tablespoon granulated sugar
2 teaspoons salt
1 3/4 cups shortening (not refrigerated;
   do not use lard, oil, margarine or butter)
1/2 cup water
1 tablespoon white or cider vinegar
1 large egg

In large bowl, stir together with fork flour, sugar and salt; cut in shortening with fork until crumbly. In small bowl, beat together water, vinegar and egg; add to flour mixture and stir until all ingredients are moistened. Divide dough in 5 portions and, with hands, shape each in flat round patty ready for rolling; wrap each patty in plastic or wax paper and chill at least 1/2 hour.

When you are ready to use the piecrust, lightly flour both sides of the patty and roll out on lightly floured board or pastry cloth. (If possible, cover rolling pin with stockinette and rub in a little flour.) Keeping pastry round, roll from center to 1/8-inch thickness and 2 inches larger than inverted pie pan; fold
Freezer Pie Dough

1 cup granulated sugar
1 egg
1 teaspoon vanilla extract
1 1/4 cups unsifted all−purpose flour
1/2 cup Hershey’s® Cocoa

Cut one roll into 1/8−inch slices; arrange, edges touching, on bottom and sides of greased 9−inch pie pan. (Small spaces in crust will not affect pie.) Bake at 375 degrees F for 8 to 10 minutes. Cool.

Freeze leftover dough; use for pie crust or cookies.

Preheat the oven to 350 degrees. Remove dough from fridge and roll out on a lightly floured surface until pastry circle is about 10 inches in diameter. Gently lay pastry into a 9-inch pie pan. Prick crust gently all over with a fork, line with aluminum foil, and fill partially with pie weights or dried beans.

Sweet Buttery Tart Pastry

1 2/3 cups unbleached all-purpose flour
1/4 cup very fine granulated sugar
1/2 teaspoon salt
10 tablespoons sweet butter, chilled
2 egg yolks
1 teaspoon vanilla extract

In a large mixing bowl, sift the flour, sugar and salt. Add the chilled butter and cut in with a pastry blender, to resemble coarse meal. (You can also rub the butter and the dry ingredients together to achieve the same effect.)

Stir egg yolks, vanilla extract and water together in a small bowl and add it to the flour mixture, blending in with a fork. Shape dough into a ball, working quickly.

Place the ball of dough on a pastry board. With the heel of your hand, push about 1/4 cup of dough away from you into a 6– to 8–inches thin streak of dough; repeat until all the dough has been smeared. Scrape dough together; re–form a ball, wrap in wax paper and chill for 2 to 3 hours.

Roll out dough between 2 sheets of wax paper (or a floured pastry cloth and a floured cloth cover on your rolling pin.) into a round large enough to line your pan. Work quickly so that the dough doesn’t become too sticky.

Line either an 8– or 9–inch false–bottom tart pan with the dough, fitting loosely into the pan and pressing it to fit all sides. Trim edges 3/4 inch outside top of pan, and fold this edge over to the inside and press into place with your fingers. Chill.

Bake for 8 minutes. Remove foil and beans. Prick the bottom of the dough with a fork in several places. For a partially baked shell, return to oven for 3 to 4 minutes longer. Crust
1/4 cup cold water
2 teaspoons cider vinegar
2 cups all-purpose flour
1/3 cup cold butter or regular stick margarine, cut into small pieces
1/4 cup solid vegetable shortening or regular stick margarine

Filling
3 cups apple cider
3/4 cup granulated sugar
1/4 cup all-purpose flour

1 1/2 teaspoons granulated sugar

Boil apple cider in heavy saucepan about 20 minutes or until reduced to 1/2 cup. Cool about 20 minutes (can be prepared up to 3 days ahead, covered and refrigerated).

To make crust in food processor, mix water and vinegar in a 1-cup measure. Process flour, butter and shortening with on/off turns until coarse crumbs form. With motor running, add water mixture. Process until dough just leaves sides of bowl.

To make crust by hand, mix water and vinegar in a 1-cup measure. Put flour in a medium size bowl. Cut in butter and shortening with pastry blender or 2 knives until mixture resembles coarse crumbs. Stir in water mixture with fork until crumbs clump together into a dough.

Gather dough into a ball, divide in half, flatten each half into a disk and wrap in wax paper. Refrigerate 45 minutes or until firm enough to roll.

Meanwhile, prepare filling. Mix sugar, flour, cinnamon and mace/nutmeg in a large bowl. Halve, core and peel apples. Cut each half into 1/2 inch thick wedges, then cut wedges in half crosswise. Add to sugar mixture along with the reduced apple cider. Toss until evenly coated.

Preheat oven to 425 degrees F. Position rack in lowest part of oven. Have ready a 9-inch pie plate.

On lightly floured surface with a lightly floured rolling pin, roll out half the dough to a 12-inch circle. Fit circle into pie plate.

Spoon filling into pie shell, mounding it high in the center.

Roll remaining dough into a 12-inch circle. Place over filling. Press edges together and roll up to form an even rim. Flute or crimp decoratively. Brush top with water, then sprinkle with the 1 1/2 teaspoon
of sugar. Cut slits in top for steam to escape.

Place pie on a cookie sheet to catch drips. Bake for 25 minutes. Reduce oven temperature to 350 degrees F. Bake for 40 to 50 minutes longer until crust is golden brown, apples are tender when pierced through a slit and juices bubble. Remove to wire rack. Serve warm or cool completely.

**You may prepare your apple pie filling from scratch. Simply select 3 or 4 firm, crisp, tart apples. Wash, peel and core the apples. Toss the fruit into a saucepan as you slice the apples, making sure to add a 1/2 tablespoon sprinkling of lemon juice as you go, to keep the fruit from browning. Add 1 cup granulated sugar, 3 tablespoons cornstarch, 1/2 teaspoon cinnamon, a pinch of salt and a dash of nutmeg to the fruit. Pour on 1 1/2 cups water and bring the mixture to a boil, stirring frequently. Reduce the heat and simmer until thickened, and you have apple pie filling from scratch!
Apple Pie in a Glass

4 cups Granny Smith apples, peeled, sliced
2/3 cup apple juice
1/4 cup brown sugar
1 teaspoon cinnamon
1/2 teaspoon nutmeg
1/2 teaspoon allspice
1 teaspoon vanilla extract
1 teaspoon rum
1/4 cup mascarpone cheese
1 cup graham cracker crumbs
2 cups vanilla ice cream

In a large saucepan, combine the apples, apple juice, brown sugar, cinnamon, nutmeg, and allspice. Place over medium heat and cook for 20 minutes until the apples are tender and the mixture is slightly thickened, stirring often.

Remove from heat and stir in the vanilla extract and mascarpone cheese.

Preheat oven to 375 degrees F.

Thaw frozen puff pastry according to package directions.

Meanwhile peel, core and coarsely chop apples to measure 2 cups.

In bowl toss apples with sugar, flour, lemon peel and juice, cinnamon and nutmeg.

On lightly floured board cut each pastry sheet into nine 3-inch squares. In center of each square place about 1/4 cup apple mixture, brush edges of square with beaten egg. Apple Streusel Pie

1/4 cup dried cranberries  
1/4 cup dried blueberries  
1/4 cup dried cherries (any kind)  
6 large apples (prefer Roma/Gala mixed), peel and core and sliced thin (about 1/8-inch)  
3/4 cup granulated sugar  
1 teaspoon apple pie spice  
1/4 teaspoon salt  
1/3 cup half-and-half (or light cream)

Crumble Topping

1/3 cup flour  
1/3 cup toasted fine chop pecans or walnuts  
3 cups packed brown sugar  
1/4 teaspoon ground nutmeg  
3 tablespoons butter  
1 recipe Single crust pie crust (or use recipe below)  
1 recipe vanilla icing (below)

Prepare Pastry. Roll out and place in a 9-inch pie pan and line the edge with double thick foil. Bake in a 450 degree F oven for 8 minutes. Remove foil and bake an additional 5 to 6 minutes until golden. Cool on a wire rack. Reduce heat to 375 degrees F.

In a small bowl, place the dried fruit and our boiling water over it. Let stand 5 minutes and drain.

Meanwhile, slice apples in food processor very thin and mix them in a bowl with the dried fruit. Mound the mixed fruit in the baked pie shell. It will be high, but arrange the fruit to fit, wedging slices of apple here and there.

In another large bowl, combine sugar, 3 tablespoons flour, apple pie spice and salt. Stir in half and half and pour over the fruit carefully.

In a medium bowl, combine 1/3 cup flour, nuts, brown sugar and nutmeg. Cut in the butter until it resembles coarse crumbs the size of peas. Sprinkle it over the pie filling.

Cover the edge of the pie crust with heavy foil and bake for 25 minutes. Remove foil and bake for 20 to 25 minutes until golden and the fruit is tender. Cool for 45 minutes on a wire rack.

Drizzle with icing and store in the refrigerator. Bring to room temp before serving. (I personally like it cold and even frozen too!) If you like apple pie, this version will knock your socks off! It’s a higher pie than most apple pies, and the streusel topping has an icing on top of that, giving a sweetness that is also unexpected. If you can’t find dried blueberries or cherries, double the amount of cranberries.

Baked Apple Dumpling Pie

Serves 6.

**Pastry**
1 3/4 cups flour  
1 tablespoon granulated sugar  
1/2 teaspoon salt  
1/2 cup (1 stick) unsalted butter, cut up  
1 egg yolk  
About 3 tablespoon cold water

In a food processor, combine the flour, sugar and salt. Pulse just to mix them.

Remove the lid and scatter the butter on top. Pulse again just until the butter is broken into very small pieces.

In a glass measuring cup, combine the yolk with enough water to make 1/4 cup of liquid. Using a fork, blend them well. Remove the processor lid and sprinkle the yolk mixture all over the flour. Pulse again just until the pastry starts to form large clumps.

Empty the crumbs into a bowl and with your hand, pack the dough as you would a snowball. Knead the dough right in the bowl 2 or 3 times. Put the dough onto a sheet of plastic wrap and form a flat disk. Wrap the dough in the plastic wrap and refrigerate for 1 hour.

**Apples**
1/2 cup raisins  
1/2 cup walnuts  
1/2 cup packed light brown sugar  
1/4 teaspoon ground cinnamon

In a food processor, combine the raisins, walnuts, 1/4 cup of the light brown sugar, and cinnamon. Pulse just until the mixture is finely ground.

Melt the butter in the skillet, but do not let it brown. Add the remaining 1/4 cup light brown sugar and the preserves. Cook for 30 seconds over medium heat or until the mixture is bubbling evenly all over. Remove the pan from the heat.

Without peeling the apples, halve them horizontally. Core each half. Place the apples, cut sides down, in the skillet. Put 6 halves around the edge and 1 in the center. Dice the remaining apple half and scatter the pieces between the apples.
Spoon some of the raisin–walnut mixture into each apple half, compacting it with the back of the spoon. Sprinkle leftover filling between the apples.

On a lightly floured board, roll the pastry to a round the exact size of your skillet. Pick the pastry up on the rolling pin and ease it onto the apples. Tuck the edge of the pastry down along the inside of the pan. Poke several large vent holds in the pastry with a paring knife.

Brush the pastry with milk and sprinkle it with granulated sugar. Transfer to the hot oven and bake the pie for 20 minutes.

Reduce the oven temperature to 375 degrees F and continue baking the pie for 25 minutes or until the crust is golden brown.

Cherry Meringue Pie

**Meringue Crust**

1/4 teaspoon cream of tartar  
3/4 cup granulated sugar

Preheat oven to 275 degrees F.

Cut a brown paper bag or parchment paper to fit a round pizza pan. Place a serving plate on the round–cut paper and draw a circle with a pencil.

Separate the egg whites from the yolks. Crack the egg over a separate bowl. There must not be any yolk in the whites or it will not whip correctly. By using a separate bowl, you guard against having to toss the whole thing if you have an accident with a yolk. Save the yolk for another use.

Place whites and cream of tartar in mixing bowl and beat with a mixer on high speed until frothy. Very gradually, add the sugar in a small stream and beat until the meringue forms and holds stiff peaks. Pour onto the middle of the brown paper and with a knife or rubber spatula, shape into a resemblance of a pie pan, pushing meringue up at the edges to form sides. Leave a 1−inch border around the edge of the paper, The meringue will expand slightly and you want to ensure it will fit on your serving plate.

Bake in the middle of the oven for 1 to 1 and 1/2 hours. It should be crispy and browned. Turn off oven, open door a notch, and let sit in oven another hour. Remove from oven and let cool completely before filling.

**Filling**
8 ounces cream cheese, softened  
1 teaspoon vanilla extract  
1/2 cup granulated sugar  
1 cup miniature marshmallows  
2 1/2 cups whipped topping, such as Cool Whip  
1 (21 ounce) can cherry pie filling

Mix the first three ingredients with mixer and then stir in marshmallows. Fold in the whipping topping.

Place a doily on the serving platter. Gently lift meringue from paper and place on serving dish. If you have trouble separating the meringue from the paper, place it into a hot oven again for just a minute or two. It should lift off of the paper easily. Spoon the cream mixture into the shell and spread evenly, pushing a little up the sides. Pour berry filling on top. Cover with plastic wrap and refrigerate until serving time.

Mai’s Fresh Strawberry Pie

1 (8–inch) pie shell, baked and cooled (you can use pre–made crumb shell)
1 pint large fresh ripe strawberries, washed, capped, well drained

Glaze
1 cup granulated sugar
1 cup 7–Up
5 tablespoons arrow root or cornstarch
1/8 teaspoon salt
1 teaspoon red food coloring
Juice from 1/2 lemon
4 tablespoons cranberry gelatin

Place strawberries in pie shell with flat side down. If using pre–made crumb pie crust, melt 1/3 cup chocolate morsels per pie; with small slanted cake spatula, spread a thin coat of chocolate in bottom only, of pie shell. Apply chocolate in a circular motion making sure you cover the complete bottom of shell. This prevents the crumb crust from breaking up when you slice the pie. When using a chocolate crumb crust I use white chocolate chips for the coating.

Glaze: Mix and bring to boil all ingredients except cornstarch or arrow root. Add cornstarch or arrow root after mixture reaches boil. Cook until thick. Remove from heat and stir in the gelatin. Stir until dissolved. Let cool.

Spoon glaze over fresh strawberries in pie shell. Completely cool, then chill in refrigerator overnight.

Black–Bottom Sweet Potato Pie

Basic Piecrust for a Double–Crust Pie
3 large orange–fleshed sweet potatoes
   (Louisiana yams), scrubbed
8 tablespoons (1 stick) butter, melted
3/4 cup packed light brown sugar
1/2 cup granulated sugar
2 large eggs, beaten
1/4 cup half–and–half
3/4 teaspoon ground cinnamon
1 teaspoon ground nutmeg

On a lightly floured work surface, roll out the dough into a 13–inch circle about 1/8 inch thick. Fold the dough in half. Transfer to a 9–inch pie pan, and gently unfold the dough to fit into the pan.

Using scissors or a sharp knife, trim the dough to a 1–inch overhang. Fold the dough under itself so the edge of the fold is flush with the edge of the pan. Flute the dough around the edge of the pan. Cover with plastic wrap and refrigerate while making the filling.

Bring a large pot of lightly salted water to a boil over high heat. Add the sweet potatoes and reduce the heat to medium. Cook until the sweet potatoes are tender when pierced with a knife, about 30 minutes. Drain and run under cold water until cool enough to handle. Peel the sweet potatoes and place in a medium bowl. Mash with an electric mixer on medium speed until very smooth. Measure 3 cups mashed sweet potatoes, keeping any extra for another use, and set aside.

Preheat the oven to 400 degrees F. Uncover the pie shell and brush the interior with some of the melted butter. Sprinkle 1/4 cup of the brown sugar over the bottom of the pie shell. Bake until the pie dough is set and just beginning to brown, about 15 minutes. If the pie shell puffs, do not prick it.

Meanwhile, in a medium bowl, using an electric mixer on low speed, mix the mashed sweet potatoes, the remaining melted butter and 1/2 cup brown sugar, the granulated sugar, eggs, half–and–half, cinnamon, and nutmeg. Spread into the partially baked pie shell, smoothing the top.

Reduce the oven temperature to 350 degrees F. Bake until a knife inserted in the center of the filling comes out clean, about 1 1/2 hours. Cool completely on a wire cake rack. Cover and refrigerate until ready to serve.

Makes 8 servings.

Buttermilk Chess Pie with Southern Comfort Raspberry Sauce

Dough
2 cups flour
1/4 cup granulated sugar
1 teaspoon kosher salt
8 tablespoons butter (1 stick), divided into several pieces
1/3 cup shortening, divided into several pieces
1/4 cup ice water

In a food processor combine the flour, sugar, and salt. Add the butter and shortening. Process (or pulse) until the mixture is coarse. Add the water slowly, being careful not to over-process. Remove the dough, roll out on a floured surface, and place in a 9-inch pie pan. (You will have dough left over; sprinkle with sugar and cinnamon, then bake it for a snack.)

Filling
1 1/4 cups granulated sugar
1 tablespoon flour
4 eggs
1 cup buttermilk
1 tablespoon lime juice
2 teaspoons vanilla extract
1 tablespoon grated nutmeg (fresh-grated makes all the difference)
8 tablespoons butter (1 stick), melted

Preheat oven to 350 degrees F.

In a bowl mix all of the ingredients except the butter, then whisk it in. Pour into the prepared crust and bake for 45 minutes or until a wooden pick or knife blade inserted in the center comes out clean. Serve with Southern Comfort Raspberry Sauce.

Southern Comfort Raspberry Sauce
12 ounces fresh or frozen raspberries (or your favorite berry)
4 tablespoons Southern Comfort
3 tablespoons granulated sugar
4 tablespoons water

Place all of the ingredients in a saucepan and bring to a boil. Reduce the heat and simmer for 5 minutes or until the berries are soft. Transfer the mixture to a blender and purée. Pass the purée through a fine strainer, such as a chinois, pressing with the back of a spoon to extract all of the liquid.
Cake Pie

Prepare a cake mix, or your favorite recipe for cake. Crumble some of it and mix it with 1/2 can or 1/2 recipe of your favorite frosting (heating the frosting to make it very soft is recommended). Press this into the bottom of a pie pan and fill it halfway up. Take vanilla, chocolate, or strawberry ice cream and let it soften (not melt) in the fridge for 1/2 hour.

Swirl the ice cream over the cake in the pie pan, so it looks like swirls of frosting. Put sprinkles on the top and serve. This can be made ahead and frozen, but let thaw before serving.

Caramel Apple Pie

Pie Dough (recipe below)
7 large Granny Smith or Pippin apples, peeled and cored
1 cup granulated sugar
3 tablespoons quick-cooking tapioca
1 teaspoon ground cinnamon
1/2 teaspoon salt
Juice of 1/2 lemon
1 tablespoon heavy cream
1 large egg
Caramel Topping (recipe below)

Butter and flour a 9-inch glass pie plate. On a lightly floured surface roll the dough to a 12-inch round about 1/8-inch thick. Line the pie plate, being sure to press the dough into the bottom and up the sides without stretching. Chill 30 minutes.

Roughly chop the apples into small pieces, about the size of lima beans. (The apples should measure about 9 cups chopped.)

Combine with the sugar, tapioca, cinnamon, salt and lemon juice in a large bowl. Set aside until the juices begin to run, about 10 to 15 minutes.

Beat together cream and egg to make a glaze and brush over the edges and bottom of the crust. Mound the apple filling in the pie shell. It will be quite full. Roll out the remaining dough to a large round about 1/8-inch thick. Place over the filling a seal the edges together by gently pressing together. Trim any excess dough with scissors and flute the edges. Brush the top with the remaining egg glaze. Using a paring knife, cut out and remove a circle the size of a quarter from the center of the top crust. Cut 5 or 6 slits in a spoke pattern beginning 1/2-inch from the center hole and ending 1/2-inch from the outside edge. Chill for 30 minutes before baking.

Preheat oven to 425 degrees F. Place the pie plate on a cookie sheet and bake 10 – 15 minutes, or until the top is golden brown. Reduce the heat to 300 degrees F and continue baking until the juice visible in the center becomes thick and bubbly, about 1 hour (if the edges are browning too quickly, cover with aluminum foil). Meanwhile prepare the caramel topping. Spoon the hot caramel over the top of the pie to coat and return to the oven. Bake 5 minutes longer, or until the caramel sets. Cool on a rack before serving.

Caramel Topping
1/2 cup packed brown sugar
4 tablespoons unsalted butter
2 tablespoons heavy cream
1/2 cup pecan halves

In a small saucepan combine brown sugar, butter and cream. Bring to a boil and cook for 2 minutes. Remove from the heat and stir in the pecan halves.

Dough
2 cups all-purpose flour
1/2 cup lard

Caramel Apple Pie 551
2 1/2 tablespoons unsalted butter
1/2 teaspoon salt
About 1/2 cup ice water

In a large bowl combine the flour with the lard, butter and salt. Mix lightly with your fingertips until the dough forms grape-size pieces. You should be able to see chunks of fat. Stir in the iced water. Lightly knead, handling the dough as little as possible, until the dough forms a ball. Add a little more iced water if necessary. Transfer to a plastic bag and shape into a log. Seal the bag, pressing out any air, and chill for as little as 1 hour or as long as 3 days. The pie dough can be frozen for as long as a week.
Caramel Delites Tropical Pie

Samoas Crust

Coconut Mousse Filling
1/4 cup cold water, plus hot water and ice water
1 tablespoon unflavored powdered gelatine
1/2 cup cream of coconut
5 egg yolks
3/4 cup granulated sugar
1 cup heavy cream

Place 1/4 cup cold water in small mixing bowl and sprinkle gelatine over top; set aside. Stir cream of coconut into gelatine mixture and place bowl in a pan of hot water to form a shallow water bath to dissolve the gelatine.

In top of a double boiler over simmering water, whisk eggs and sugar until they reach 130 degrees F on an instant–read thermometer. Then beat egg yolks at high speed of an electric mixer 5 minutes. Mixture will become light and thick. On low speed of electric mixer, slowly add gelatine mixture to egg yolks.

Place bowl of egg yolk mixture in a larger bowl filled with ice water. Stir with a rubber spatula continually until mixture thickens to a sauce consistency.

In a clean, chilled bowl, whip heavy cream until stiff peaks form. Set aside.

When egg yolk mixture is thickened, fold 1/3 of whipped cream into it. When incorporated, add another third, fold, and then fold in final third. Fill shell with cream mixture and chill 3 to 5 hours.

1/3 cup confectioners' sugar
1 1/2 teaspoons vanilla extract

Slowly stir 1 cup of the hot mixture into the beaten egg yolks. Pour egg yolk mixture into hot filling in pan. Bring just to boiling; reduce heat. Cook and stir for 2 minutes. Remove from heat. Stir in butter and vanilla extract. Let cool 10 minutes.

Meanwhile, on a lightly floured surface, flatten chilled dough. Roll from center to edges to form a 12–inch circle. Pour warm filling mixture into baked pastry shell. Place pastry top over the filling mixture, pressing into pastry edge to seal. Trim dough to edge of pie plate.

Gently prick top of pastry with a fork. Bake for 25 minutes or until crust is firm and dry. Cool for 1 hour on a wire rack. Cover and chill for 2 to 24 hours before serving.

To serve, invert a serving platter on top of pie. Turn pie upside–down. Remove pie plate. If desired, top with whipped cream and grated chocolate.

Footsie's Easy Peanut Butter Pie

1 prepared pie crust shell (I like chocolate crumb)
1 small package cook 'n serve vanilla pudding
Peanut butter

Meringue
3 egg whites
1/4 cup granulated sugar

If using a cookie crumb crust, brush with beaten egg white and bake in 375 degree F oven for 5 minutes. This keeps the crust from getting soggy after being filled.

Cook pudding according to package directions, adding peanut butter to taste. I use a heaping serving spoon. I guess it's about 1/2 cup, but I usually just taste it. Cook until pudding/peanut butter is very thick, stirring constantly. Fill pie shell and top with meringue.

Meringue: Beat egg whites till stiff. Add 1/4 cup sugar, and beat until sugar is dissolved. Spread on pie. Bake in 325 degree F oven about 15 minutes (just until meringue is browned).

*Chocolate pudding can also be used. A large package of pudding will fill 2 pies, increase peanut butter accordingly. Sugar−free pudding can also be used for diabetics, but use a sugar substitute in the meringue.

French Canadian Maple Syrup Pie

Pie Crust
1 1/2 cups all-purpose flour
1/2 teaspoon salt
1/2 teaspoon granulated sugar
8 tablespoons unsalted butter, very cold
2 tablespoons shortening, very cold
About 4 tablespoons ice water

Mix flour, salt and sugar. Cut butter into pieces. Cut in butter and shortening until it looks like flaky meal. Sprinkle in ice water. Work into a ball that cleans the sides of the mixing bowl. (To mix in a food processor, place dry ingredients in the work bowl, top with pieces of cold butter and shortening, and pulse until mealy. With machine running, pour in ice water all at once. When dough forms a ball that knocks around the sides of the bowl, stop machine at once.)

Flatten dough into a disk, wrap with plastic wrap, and chill 30 minutes.

Roll dough into a circle 3 to 4 inches wider than a 9-inch pie plate, set in the plate, and trim with scissors so dough extends 3/4 inch beyond the rim. Fold overhang under so it is even with plate's rim and crimp into large flutes. Chill 30 minutes while preparing filling.

Gianduia Pie (Nutella Pie)

Makes 8 servings.

This no-bake pie combines whipped cream and Nutella, a chocolate-and-hazelnut paste readily available at most supermarkets, for a mousse-like filling with a sophisticated taste. To toast and skin hazelnuts, place them on a baking sheet and bake at 350 degrees until fragrant, about 10 minutes.

Remove the nuts, cool slightly and wrap them in a kitchen towel. Rub the nuts with the towel to remove the skins.

Crust
22 Nabisco Famous Chocolate Wafers
1/2 cup toasted and skinned hazelnuts
1/4 cup (1/2 stick) butter, melted and slightly cooled
1 tablespoon granulated sugar
1/8 teaspoon salt
1/2 teaspoon vanilla extract

Filling
3/4 cup toasted and skinned hazelnuts
1 1/2 cups heavy cream, chilled
1 teaspoon vanilla extract
1 (13 ounce) jar Nutella

To prepare the crust, preheat oven to 350 degrees F.

In a food processor, place cookies and nuts and process until finely ground. Add melted butter, sugar, salt and vanilla and pulse to moisten cookie mixture. Press the mixture evenly across the bottom of a 9-inch pie plate and all the way up the sides of the pan, packing it tightly with your fingertips so it is even and compacted. Bake until crisp, 6 to 8 minutes. Cool completely before filling.

To prepare the filling, in a food processor, add nuts and chop finely. Set aside.

With an electric mixer, whip the cream and vanilla extract until stiff peaks form.

In a separate bowl, combine 1/4 of the whipped cream with the Nutella. Stir until smooth. Gently fold Nutella mixture back into the remaining whipped cream. Fold in the reserved hazelnuts. Scrape the filling into the prepared pie shell and smooth the top with a spatula. Cover with plastic wrap and refrigerate until firm, about 6 hours.

Jim's Key Lime Pie

1 (10-inch) graham cracker crust (may use 8-inch, but will have some filling left over)
2 cans Eagle Brand sweetened condensed milk
3 egg yolks*
1/4 teaspoon lime oil *
1 cup Nellie & Joe's Key West Lime Juice, separated
1 package unflavored gelatine

Mix together sweetened condensed milk, egg yolks and lime oil until blended. Add 3/4 cup lime juice to mixture. Set aside.

Heat remaining 1/4 cup lime juice in microwave until piping hot. Whisk gelatine into hot lime juice, making sure there are no lumps. Add gelatine mixture to the pie filling with electric mixer on high speed. Mix until all ingredients are blended well. Pour into crust and chill at least four hours or until set.

Add whipped topping and serve. Or, if you love meringue, use the egg whites and 3 tablespoons granulated sugar and beat until peaks form. Top with meringue and bake at 400 degrees F until meringue is golden brown.

* Don't worry about the raw egg yolks. The lime juice will cook those for you. You can get the lime oil from a pharmacy, specialty baking store or (where I found it) on line at http://www.suttonsbaytrading.com. I am not affiliated with this web site. Just a great place to buy oils and other baking needs.

You can omit the lime oil, but if you want the best Key lime pie that you have ever had, use it. To me it is worth the trouble to find it.

**Lemon Stack Pie**

3 cups all-purpose flour  
3/4 teaspoon salt  
3/4 teaspoon cream of tartar  
1/4 teaspoon baking soda  
1 cup shortening  
8 to 10 tablespoons cold water  
1 cup butter, softened  
1 3/4 cups granulated sugar  
10 egg yolks  
1 tablespoon finely shredded lemon peel (set aside)  
2 tablespoons lemon juice  
1 cup packed brown sugar  
1/2 cup whipping cream  

Preheat oven to 450 degrees F. Line three 9-inch pie plates with foil, allowing foil to extend over the edges of each pie plate. (*) Set aside.

In a large mixing bowl stir together the flour, salt, cream of tartar, and baking soda. Using a pastry blender cut in the shortening until pieces are the size of small peas. Sprinkle 1 tablespoon of the water over part of the mixture; gently toss with a fork. Push moistened dough to one side of bowl. Repeat, using 1 tablespoon water at a time, until all dough is moistened. Form dough into ball. Divide into 3 equal portions.

On a lightly floured surface roll one portion of dough to a 12-inch circle. Ease into a prepared 9-inch pie plate. Trim pastry to 1/2 inch beyond edge of pie plate. Fold under extra pastry. Crimp edge and prick pastry all over with the tines of a fork. Line pastry-lined pie plate with a double thickness of foil. Bake 8 minutes. Remove foil. Bake 4 to 5 minutes more or until golden brown. Cool on a wire rack.

Roll out the remaining portions of dough to 10-inch circles. Ease each pastry circle into a prepared 9-inch pie plate. Trim so that dough goes only 3/4 inch up the sides of the pie plate. Prick pastry all over. Line pastry-lined pie plate with a double thickness of foil. Bake for 8 to 10 minutes or until golden brown. Cool on wire racks. Reduce oven temperature to 350 degrees F.

For filling, in a large mixing bowl beat butter with an electric mixer on medium to high speed for 30 seconds. Add granulated sugar and beat until fluffy. Add egg yolks, a few at a time, beating well after each addition. Beat in lemon juice. Stir in peel.

Divide mixture among the three baked crusts, spreading evenly. Bake about 20 minutes or until set and lightly browned on top. Cool on wire racks. When cool, use foil edges to carefully lift and remove pies from pie plates. Carefully peel away foil. Place the larger pie on a serving plate. Carefully stack the remaining pies on top.

For frosting, in a medium saucepan stir together the brown sugar and cream. Bring to boiling over medium-high heat, stirring constantly to dissolve sugar. Reduce heat to medium-low; continue boiling at a moderate, steady rate, stirring occasionally, for 10 minutes. Remove pan from heat. Let cool 5 minutes. Stir vigorously about 5 minutes or until mixture thickens and lightens in color. Pour over stacked pies, spreading to allow some of the frosting to flow down the sides. Cool. Serve at room temperature. Or cover and chill up to 24 hours before serving.
Makes 16 servings.

(*) Note: If you only have one pie plate, work with one portion of pastry dough at a time; cover remaining portions of dough. Roll out and bake fluted pastry shell in foil–lined pie plate as directed in Step 3. Cool thoroughly on a wire rack. Carefully remove baked shell from pie plate. Carefully peel away foil. Transfer pie shell to a large foil–lined baking sheet.

Roll out and bake remaining two pastry shells, lining pie plate with foil each time. Place shells on foil–lined baking sheet. Fill and bake shells as directed.

Mama's Lemon Sponge Pie

Makes one 8–inch pie.

1 cup granulated sugar
1 tablespoon butter
2 heaping teaspoons flour
Juice from one lemon

(or just a bit less than 1/4 cup)
2 egg yolks
1 cup milk

Mix together all the above ingredients in order.

Beat egg whites until stiff; fold into lemon mixture. Pour into unbaked pie shell. Bake at 325 degrees F for approximately 45 minutes.

Now when I made it (I goofed) ....I forgot an ingredient...the milk...so when I made it the second time I added it...and honestly I preferred it without it....though I think I'll try it again...but use 1/2 cup milk and see how I like that.. The one I made had a wonderful lemon filling...the crust did get baked well...and there was a crusty type topping...really good actually...and a lot cheaper than the bought variety for sure..

For a 10 inch pie...(which isn't in a frozen crust) you just add 1/2 more of every ingredient...and of course it would have to bake longer...

3/4 cup granulated sugar
1/2 cup unsweetened cocoa powder
1/2 cup (1 stick) cold margarine
Vegetable oil *

* Use peanut or safflower oil or solid vegetable shortening for frying.

Crust: sift flour and salt together; cut in the shortening with a pastry blender or 2 knives, until mixture resembles coarse cornmeal. Add ice water a little at a time while tossing with a fork, until dough holds together. Do not get too moist. Roll out dough to 1/8 inch thick. Cut into circles about five inches in diameter.

Mix cocoa powder with the sugar. Place 2 to 3 tablespoons of this mixture onto one half of the circle and place 3 very thin slices of cold margarine on top. Fold opposite side over mixture and seal with a fork dipped in flour.

Pour oil to a depth of about 1/2 inch in a cast iron skillet. Heat over medium–high heat until very hot. Place pies in a single layer in oil and fry, turning to brown each side.

Serve hot, warm, or cold.

Butter Pecan Pie

**Dough**
1 cup plus 3 tablespoons flour  
1/2 teaspoon salt  
7 tablespoons cold, unsalted butter, cut up  
1/4 cup ice water

Sift 1 cup of the flour and the salt into a large bowl. Add butter, and working quickly with a light touch, cut butter into the flour with a spoon and fingertips until mixture is the texture of coarse cornmeal. Add ice water and stir until well blended. Form the dough into a ball and place on a flat surface floured with the remaining 3 tablespoons flour. With a floured rolling pin, roll out dough to a thickness of 1/4 to 1/8 inch. Place an ungreased 8 1/2-inch round pie pan face down on top of the dough and cut around the pan, leaving a 3/4-inch border. Lightly flour the top of the dough and fold it in quarters. Carefully place dough in the pie pan, with the points of the folded dough centered. Unfold dough and line the pan bottom and sides, gently pressing dough into place and draping a little over the rim. Flute the edges. Refrigerate prepared pie shell until ready to use.

1/8 teaspoon salt  
1 cup pecan halves

Place eggs in a medium-size bowl of an electric mixer and beat on high speed a few seconds until frothy. Add sugar, corn syrup, butter, vanilla extract, salt, and pecan butter. Beat on medium speed a few seconds until well mixed, pushing sides down as needed. Stir in the unroasted pecan halves. Pour mixture into prepared pie shell. Place on a cookie sheet and bake at 350 degrees F for 40 minutes.

Reduce heat to 325 degrees F and bake until filling is browned on top and crust on edges is lightly browned, about 40 minutes more. Remove from oven and let cool at least 30 minutes before serving.

Pecan Fudge Cheesecake Pie

**Crust**
1 1/2 cups King Arthur Unbleached All-Purpose Flour
1/2 teaspoon salt
1/2 cup chocolate cookie crunch, or any crushed chocolate cookies
1/4 cup pecan meal or finely ground pecans
1/2 cup butter or vegetable shortening
4 to 6 tablespoons cold water
1/2 cup semisweet chocolate chips

**Cheesecake Layer**
8 ounces cream cheese, softened
1 egg yolk (save the white)
1/3 cup granulated sugar
1/8 teaspoon salt
1 teaspoon vanilla extract

**Pecan Layer**
1 cup chopped pecans
1/4 cup firmly packed light brown sugar
2/3 cup golden syrup or light corn syrup
2 teaspoons vanilla extract
2 eggs plus 1 egg white

Crust: In a medium-size mixing bowl, whisk together the flour, salt, chocolate crunch and pecan meal. Using your fingers, a pastry fork, pastry blender or mixer, work in the butter or vegetable shortening. Sprinkle with 4 tablespoons of cold water while tossing with a fork; add additional water if the dough isn't cohesive. Flatten the dough into a disk, and refrigerate it for 30 minutes or so.

On a well-floured surface, roll the crust into a 12-inch circle, then fit it into a 9-inch pie pan that's at least 1 inch deep. Crimp the outside edge, and prick the bottom with a fork. Line the crust with a nesting pie pan, or the weights of your choice, and "blind-bake" it (bake it without filling) in a preheated 425 degree F oven for 10 minutes. Remove it from the oven, allow it to cool for 5 minutes, then remove the weights and sprinkle the chips over the bottom of the pie shell. Spread the chocolate into an even layer once it's melted. Refrigerate for 30 minutes, or until the chocolate is set.

Cheesecake Layer: Mix all of the cheesecake ingredients together gently just till blended. Spread this mixture into the bottom of the chilled crust. Bake the pie in a preheated 350°F oven for 25 minutes, covering the edge with a pie crust shield to prevent burning. The cheesecake will still be slightly soft.

Pecan Layer: Sprinkle the pecans over the cheesecake layer. Whisk together the sugar, syrup, vanilla, eggs, and egg white, and gently pour the mixture over the pecans. Garnish with pecan halves, if desired. Return the pie to the oven, and bake it for an additional 20 to 25 minutes, or until it's puffed. Keep the crust shield on to protect the edge of the crust. Remove it from the oven; the filling will fall (which is Okay). Refrigerate the pie for several hours before serving, and keep any leftovers refrigerated.

1 can condensed cream of potato soup (this soup is great because it has chunks of potatoes)
1/2 cup milk
6 large eggs lightly beaten

Preheat oven to 350 degrees F.

Sprinkle Swiss cheese over pie crest. Then sprinkle the chicken evenly on top of the cheese. Set aside.

Combine the soup and milk mixing until well blended. Stir in the eggs mixing well.

Pour into the pie shell and bake for 35 to 40 minutes or until golden in color and knife inserted in center comes out clean.

Remove from oven onto a wire rack and let stand 5 minutes before serving.

Note: this quiche puffs up beautifully while baking and then settles. This would also taste great with some peas and carrots. (it can almost be called chicken pot quiche without the crust on top.)

Prepare piecrust: Measure flour, granulated sugar and a generous pinch of salt into a food processor fitted with a metal blade. Pulse once or twice to mix. Add butter and pulse on and off until mixture resembles small peas. Add ice water all at once. Pulse a few more times, just until dough starts to come together. Turn dough onto counter and flatten into a disk. Wrap dough well in plastic or waxed paper, and refrigerate for at least 30 minutes before rolling out.

Drain fruit and place in crust fitted into deep dish. Add top crust and slash top. Brush with milk and bake 10 minutes at 425 degrees F. Finish baking at 350 degrees F for around 35 minutes.

Instead of discarding marinade, thicken it slightly and serve over ice cream.

Almond Strudel

Strudel Dough
4 egg yolks
1/2 cup granulated sugar mixed with 1/4 teaspoon cinnamon
Zest of 1 lemon
1 tablespoon lemon juice
1/2 pound almonds, blanched, dried and ground
1/2 cup melted butter

Heat eggs, sugar and cinnamon until light; add lemon zest, juice and almonds. Spread evenly over 3/4 of the buttered, stretched dough. Drip 1/2 of the melted butter over the filling. Roll, trim and bake, brushing top with the remaining butter.
Apple and Dried Cherry Strudel

1/2 cup dried tart red cherries
1/2 cup packed brown sugar
2 tablespoons all-purpose flour
1/2 teaspoon ground cinnamon
3 cups thinly sliced peeled cooking apples
   (about 1 pound)
10 to 12 sheets frozen phyllo dough (about
   18 x 12-inch rectangles), thawed
1/3 cup butter, melted
1 tablespoon granulated sugar

Pour enough boiling water over dried cherries to cover; let stand 20 minutes. Drain cherries.

In a large mixing bowl combine brown sugar, flour and cinnamon. Add Apples and dried cherries; toss gently to mix. Set cherry mixture aside.

To assemble, cover a large surface with a floured bed sheet; unfold phyllo dough. Stack 2 layers of phyllo on the floured bed sheet, brushing between layers with some melted butter. Arrange another stack of 2 layers on the bed sheet, brushing between and overlapping stacks slightly. Add 3–4 more stacks, brushing and overlapping, forming a rectangle about 40 x 18 inches (stagger stacks so all seams are not down the middle). If necessary, trim to a 40 x 18-inch rectangle. Brush with melted butter.

Beginning 4 inches from one short side of the dough, spoon filling in a 4-inch–wide band across the dough. Using the bed sheet underneath as a guide, gently lift the 4-inch piece of dough and lay it over the filling. Slowly and evenly lift the bed sheet and roll up the dough and filling, jelly-roll style, into a tight roll. If necessary, cut excess dough from ends to within 1 inch of filling. Brush top with remaining butter; sprinkle with granulated sugar. Fold ends under to seal. Carefully transfer strudel roll to a lightly greased 17 x 14-inch baking sheet. Bake in a preheated 350 degree F oven for 35–40 minutes, or till golden. Carefully remove strudel from pan. Cool on a rack.
Apple Strudel

Strudel Dough
2 quarts cooking apples, cut fine
1 cup seeded raisins
1/2 cup currants
1/4 pound almonds, blanched and chopped
1 cup granulated sugar mixed with 1 teaspoon cinnamon
1/2 cup melted butter

Combine all ingredients except butter. As rapidly as possible, spread apple filling evenly over three-quarters of the stretched, buttered Strudel Dough. Drip some melted butter over filling. Roll up, trim edges, then place in pan. Brush with remaining butter from time to time while baking.

Serve slightly warm.
Apple Walnut Strudel with Vanilla Sauce

5 Granny Smith or Pippin apples, peeled, cored and sliced
4 ounces butter
1/2 cup packed brown sugar
1/4 cup granulated sugar
2 teaspoons ground cinnamon
2 teaspoons lemon zest
1/2 cup raisins
1 tablespoon apple juice or water
1/2 cup walnuts, chopped
2 (8 x 12−inch) puff pastry dough sheets
Egg wash (1 beaten egg with 1 ounce water)
Sweetened whipped cream (optional)

Vanilla Sauce

In a large sauté pan, melt butter over medium heat. Add sugars, lemon zest, raisins and cinnamon mixing well. Add apple juice or water. This mixture will begin to caramelize to form a glaze. Place sliced apples in a mixing bowl. Pour warm glaze over apples and mix well to coat evenly. Place puff pastry dough sheets on floured work surface. Brush with egg wash.

Portion glazed apples lengthwise down the center of the dough sheets. Sprinkle generously with walnuts and streusel. Fold over one side of the pastry to cover apples then fold over the other side to encase the mixture. Fold under edges to seal.

Carefully turn over filled pastry and place on baking sheet. Brush with egg wash and sprinkle with additional streusel. Bake in preheated oven at 400 degrees F for 15 to 20 minutes or until golden brown. Cool slightly and dust with confectioners' sugar. Slice with a serrated knife.

Makes 2 strudels (14 to 16 servings)

Vanilla Sauce
1 1/2 cups milk
4 egg yolks
3 1/2 ounces granulated sugar
1/2 teaspoon vanilla extract
1/2 cup cold milk

Bring the 1 1/2 cups of milk to a simmer. Remove from heat and set aside.

Place egg yolks, sugar, and vanilla extract in a mixing bowl and whisk until mixture forms ribbons.

Combine warm milk and egg mixture in a saucepan and cook over low heat stirring constantly with a wooden spoon or rubber spatula until sauce thickens.

Test by coating a spoon with sauce and running a finger across it. If the sauce does not run together, it is at the proper consistency.

Remove from heat and incorporate the 1/2 cup of cold milk. Strain sauce and chill in a container placed in a bowl of ice water. When cool, cover and refrigerate until serving time.
Sauce may thicken when refrigerated. Simply add more milk to thin to desired consistency.

Makes 2 cups.
Apricot−Pecan Butter Strudel

**Dough**
1/2 pound (2 sticks) unsalted butter
1 cup (1/2 pint) vanilla ice cream (not premium ice cream), at room temperature
2 cups all−purpose flour

**Filling**
1/2 cup apricot preserves
1 1/3 cups golden raisins
1 cup pecans, coarsely chopped

For the dough: In a medium saucepan melt the butter slowly over low heat. Do not let it brown. Pour the butter into a large bowl. Add the ice cream and stir until the ice cream melts. The mixture will look lumpy.

Add the flour and stir until the flour is incorporated and a very soft dough forms. Cover and refrigerate at least 2 hours or overnight. The chilled dough should feel firm to the touch.

Remove the dough from the refrigerator and divide it into 4 pieces. Roll one of the pieces of dough between your hands into a smooth ball. Do this quickly so that the dough does not soften.

Press the dough into a 1−inch−thick disk. Lightly flour a rolling surface and roll the dough to a 12 x 6−inch rectangle about 1/8 inch thick. Lift and turn the dough several times as you roll it so it doesn't stick to the surface.

To fill the dough: The long side of dough should be facing you. Leaving a 1/2−inch edge all around, spread 2 tablespoons of the apricot preserves evenly over the dough. Sprinkle with 1/3 cup of raisins and 1/4 cup pecans. With the long side still facing you, roll up the strudel. Press the edges and seam together to seal tightly.

Repeat the rolling and filling with the 3 remaining pieces of dough.

To freeze: Roll each strudel strip tightly in heavy−duty foil. Freeze up to three months.

To bake: Set the oven at 375 degrees F.

Unwrap as many strudel strips as you want to bake. Line a baking sheet with aluminum foil from the frozen strudel. Place the strudel, seam side down, on the baking sheet. If baking more than one strip of strudel, place the strips 2 inches apart.

Bake the strudel for 35 to 40 minutes, reversing the baking sheet from front to back halfway through cooking to ensure even browning. The crust should be golden brown. Let the strip cool for 10 minutes on the baking sheet.

With a long wide metal spatula, transfer the strudel to a rack to cool completely. On a board with a sharp knife, cut in a slight sawing motion on the diagonal so make eight pieces. Wrap baked strudel with plastic wrap and store up to three days at room temperature.
Makes 32 pieces.
Chocolate Almond Strudel

1/4 pound butter, melted and clarified
4 sheets filo dough
1/3 cup ground almonds
1 teaspoon cinnamon
2 teaspoons granulated sugar
8 ounces semi–sweet chocolate, coarsely chopped
3/4 cup almonds, toasted and slivered

Preheat oven to 375 degrees F.

Melt and clarify butter. Set aside.

Have filo sheets unrolled and covered with a damp cloth.

Mix ground almonds, cinnamon and sugar together.

In another small bowl, combine chopped chocolate and toasted almonds.

Lay out one sheet of filo. Brush generously with melted butter. Sprinkle on some of the ground almond mixture. Lay another filo sheet on top. Brush with butter and proceed as with the first sheet. Once on top layer, brush again with butter. Place chocolate/almond mixture on the lower third of the stacked filo sheets. Lift the pastry gently over the chocolate to cover it. Fold in the left and right edges of the filo about 2 inches towards the center. Roll from the bottom in jellyroll fashion. Place seam side down on a lightly greased baking sheet. Bake 35–40 minutes until lightly browned.

Let cool before slicing. Use a serrated knife. Dust with icing sugar before serving, if desired. Cool thoroughly.
Maraschino Cherry and Pineapple Strudel

Strudel Dough
1/2 cup melted butter
1/2 cup graham cracker crumbs
1 1/2 cups granulated sugar
1 teaspoon cinnamon
3 1/2 cups fresh pineapple, diced
1 cup seeded raisins
1 cup walnuts, ground
1/2 cup maraschino cherries, cut fine

Mix crumbs, sugar and cinnamon and sprinkle over stretched and buttered dough. Spread fruit and nuts over 3/4 of the dough evenly and drip half the melted butter over all. Roll, trim and bake, brushing top with remaining melted butter. If canned pineapple is used, drain well, and reduce sugar to 3/4 cup.
Peach Raspberry Strudel

1/2 cup whole almonds, toasted
3/4 cup oatmeal
1/2 cup light brown sugar, packed
1/4 cup granulated sugar
2 teaspoons cinnamon
3 medium peaches, peeled and cut into 1/4-inch dice
1/2 pint fresh raspberries
1/2 teaspoon vanilla extract
6 sheets phyllo dough
6 tablespoons melted butter

Preheat oven to 375 degrees F.

Chop the almonds in a food processor. Add the oatmeal and process until the texture resembles coarse cornmeal. Add sugars and 1 teaspoon of the cinnamon. Process just combine the ingredients. Set aside.

Combine diced peaches, raspberries, remaining 1 teaspoon cinnamon and vanilla extract, and toss to mix well.

Place one sheet of phyllo on a clean counter. Brush lightly with melted butter to cover the entire sheet. Top with a second sheet of phyllo and brush with melted butter. Sprinkle about one-fifth of the pecan mixture generously over the top. Add another sheet of phyllo, butter it, and top with the pecan mixture, and keep the layers going to the last sheet of phyllo is used. Sprinkle the remaining pecan mixture over the top of the filo dough. Spread the fruit mixture in a log down one of the long sides of the filo sheets, leaving a 1-inch border on each end. Starting with the long end, roll the filo and fruit into a log, tucking the ends under so that the fruit is completely enclosed.

Cut a piece of baking parchment big enough to fit the strudel. Place the strudel seam side down on a baking pan lined with the parchment. Brush the tops and sides of strudel with remaining melted butter.

Make shallow cuts with a serrated knife along the top of the strudel, where you'll want to cut it after it is baked. Bake in a preheated 375 degree F oven for 25 to 30 minutes.

Serve warm or cool with dusted with confectioners' sugar and topped with ice cream or whipped cream.

Strudel

**Dough**
1 cup (2 sticks) butter, softened
8 ounces cream cheese, softened
2 cups all-purpose flour

**Filling**
3 cups apricot preserves
3/4 cup shredded coconut
1 1/2 cups chopped walnuts
1 cup granulated sugar mixed with 3 teaspoons cinnamon
3/4 cup golden raisins
Confectioners' sugar for dusting and rolling

NOTE: The dough may be frozen in three balls. The baked slices can also be frozen without confectioners' sugar on top.

Dough: Mix dough ingredients together in bowl and knead into smooth dough. Separate into three balls. Cover and refrigerate overnight or for a few hours.

Roll 1 ball of dough onto lightly floured and confectioners' sugared surface. Roll into circle. Spread each circle generously with 1 cup apricot preserves. Sprinkle with 1/4 cup shredded coconut. Spread 1/2 cup chopped walnuts over top. Sprinkle with 1/3 cup cinnamon–sugar mixture. Top with 1/4 cup golden raisins. Roll from one side into a log. Pinch ends together. Bake at 350 degrees F for 20 minutes or until top is lightly golden. Do not over-bake (the top looks light).

Remove from oven and lightly slice 1/4 inch crosswise only on the top of the loaf. Wait 15 minutes and slice through. Let cool completely.

Dust with confectioners' sugar.

Yield: 3 strudels, each cut into 12 slices
Strudel Dough

1/4 teaspoon salt
1 1/2 cup flour
1 egg, slightly beaten
1/3 cup warm water
1/2 cup butter, melted

Mix salt, flour and egg. Add water. Mix dough quickly with a knife, then knead on board, stretching it up and down to make it elastic, until it leaves the board clean. Toss on a small, well-floured board. Cover with a hot bowl and keep it warm 1/2 hour or longer.

To stretch the dough, have materials for filling ready before stretching. Work quickly. Lay dough in center of a well-floured tablecloth on table about 30 x 48 inches. Flour dough. Roll into a long oval with rolling pin. Brush dough with 1/4 cup of the melted butter. With hands under dough, palms down, pull and stretch the dough gradually all around the table, toward the edges, until it hangs over the table and is as thin as paper. Cut off dough that hangs over edge and drip 1/4 cup more butter over surface of dough.

To fill, roll and shape, sprinkle filling over 3/4 of the greased stretched dough. Fold a little of the dough at one end over the filling. Hold the cloth at that end high with both hands and the strudel will roll itself over and over, like a large jellyroll. Trim edges again. Twist roll into a greased 16 x 11-inch pan or cut into 3 strands and lay them side by side in pan.

To bake strudel, brush top with more melted butter. Bake at 400 degrees F for 1/2 hour.

Reduce oven temperature to 350 degrees F and bake 1/2 hour longer, or until brown and crisp. Brush well with butter from time to time during baking, using all together about 1 cup melted butter for the strudel with its fillings.

Banana Caramel Tart

**Crust**
1/2 cup butter, room temperature
1/4 cup granulated sugar
1 large egg yolk
1 teaspoon vanilla extract
1/4 teaspoon salt
1 cup flour

**Banana Topping**
3 large bananas, thinly sliced
1 tablespoon butter, melted
1 tablespoon granulated sugar
1 cup macadamia nuts, lightly toasted

**Caramel Sauce**
1 cup heavy whipping cream
1 cup granulated sugar
1 tablespoon fresh lemon juice
1/4 cup butter

Sauce: In a heavy saucepan, heat the cream over medium low heat until bubbles form along the edges of the pan; keep warm.

In a heavy saucepan, combine sugar and lemon juice until well mixed. Cover the pot and place it over medium high heat until the sugar melts and bubbles, about 4 minutes. Remove the cover and occasionally swirl the pan or stir the mixture until the syrup is a golden amber color, 5 to 8 minutes. While cooking, brush the sides of the pan with a wet brush just above the bubbling sugar to keep crystals from forming. Stirring constantly, slowly pour the warm cream. Bring to a boil, continuing to stir constantly. Cook until slightly thickened, about 3 minutes.

Remove the sauce from the heat, add the butter, and stir until the butter melts and the sauce is smooth. Serve immediately or cool to room temperature, then cover tightly and refrigerate for up to two weeks, reheat in a pan of simmering water or a microwave.

Preheat oven to 450 degrees F.

Crust: In a large bowl, beat butter and sugar, with an electric mixer, until blended. Beat in yolk, vanilla extract and salt. Add flour and beat until moist clumps form. Press dough into bottom of 9-inch tart pan with removable bottom. Pierce with fork and refrigerate for 1 hour. Bake crust until golden (about 15 minutes). Cool.

Topping: Reduce oven temperature to 375 degrees F. Overlap banana slices on crust, covering completely. Brush melted butter over banana slices and sprinkle with sugar. Bake until just warmed through (3 minutes). Drizzle with some caramel sauce over bananas then sprinkle with macadamia nuts.

Serve with ice cream (vanilla or coconut) and pass extra caramel sauce around.
Blueberry Brown Butter Tart

3 eggs
1 1/4 cups granulated sugar
1 tablespoon grated lemon zest
1 teaspoon vanilla extract
1/4 cup all-purpose flour, sifted
12 tablespoons (1 1/2 sticks) unsalted butter
1 pre-baked Sweet Short Crust Tart Shell (recipe follows)
1 cup fresh blueberries

Topping
2 cups water
1 1/2 cups granulated sugar
2 1/2 cups fresh blueberries
1/2 cup confectioners' sugar

In a large bowl, whisk the eggs, sugar, lemon peel and vanilla extract until combined. Sift the flour over the top and mix well. Set aside.

In a small saucepan over medium–high heat, melt the butter until it is foamy. Continue to heat the butter until the foam begins to subside and the butter begins to burn brown, just starts to smoke and gives off a nutty aroma. Whisking continuously, pour the hot butter in a steady stream into the egg mixture, combining well. Let the mixture cool to room temperature.

Preheat oven to 350 degrees F.

Sprinkle the 1 cup blueberries evenly over the bottom of the prebaked tart shell. Pour the brown butter mixture over the blueberries, filling the shell two-thirds full. Bake until the filling is firm to the touch, 45 to 55 minutes. Let the tart cool completely.

For the topping, combine the water and sugar in a saucepan, and bring to a boil over medium heat. Boil for 30 seconds. Place the 2 1/2 cups blueberries in a colander set over a bowl. Pour the syrup over the berries, coating them completely, and allow the excess to run into the bowl. Shake the colander to remove the excess syrup. Mound the berries onto the cooled tart, covering the entire top.

Just before serving, sift the confectioners' sugar over the top.

together in a ball.

Remove the dough from the processor and flatten it into a 6-inch diameter cake. Wrap it in plastic wrap and refrigerate for 30 minutes.

Preheat oven to 400 degrees F.

Press the pastry evenly onto the bottom and sides of a 9-inch tart pan. Chill the tart shell in the freezer for 30 minutes.

Caramel Turtle Tart

**Crust**
1/2 cup butter
1/4 cup firmly packed brown sugar
1 cup flour
1/4 cup oats
1/4 cup ground pecans

**Chocolate Ganache**
1 cup miniature chocolate chips
1/2 cup heavy cream

**Caramel Topping**
35 individually wrapped caramel candies, unwrapped
1/3 cup heavy cream
1 cup roughly chopped pecans

Preheat oven to 350 degrees F.

Combine butter, brown sugar, flour, oats, and pecans. Gather dough into a ball, then press down to form a disk. Wrap dough in plastic and chill in refrigerator for 20 minutes, or overnight.

Press dough evenly into a 9 1/2-inch tart pan with removable bottom. The crust should be about 1/8-inch thick on the bottom and slightly thicker on the sides. Bake crust for 12 minutes, until golden brown. Remove from oven and cool.

Make the ganache: Pour chocolate chips into mixing bowl.

In heavy saucepan, heat cream over medium–high heat until it just begins to simmer. Remove from heat immediately and pour hot cream over chocolate chips. Stir steadily until all chocolate is melted. Pour 3/4 cup ganache over bottom of tart. Refrigerate for 15 minutes.

Meanwhile, melt caramels with the cream over medium–low heat, paying careful attention that it does not burn. Stir in pecans. Remove chilled tart from refrigerator and pour caramel mixture over the entire chocolate layer. The caramel should spread slowly and evenly over the ganache. If necessary, even out the caramel layer very gently with a spatula. Return tart to refrigerator for 10 minutes.

Pour remaining 1/4 cup ganache into a pastry bag (or a sandwich bag with a small cut at one corner). Squeeze out ganache in parallel stripes over the caramel layer. Run a knife through the chocolate in perpendicular or diagonal.

Yield: 10 to 12 servings

NOTE: The tart can be chilled for up to three days before serving.

Lemon and Lime Cream Tart

1 tart shell, baked blind
8 large free−range eggs
12 ounces caster sugar
12 ounces double cream
7 1/2 ounces lime juice
3 3/4 ounces lemon juice

With this particular tart, as it has a moist filling, it’s important to egg−wash the uncooked tart shell before adding the filling. This adds a sort of waterproof layer and keeps the pastry crisp and short for longer.

Whisk together the sugar and eggs in a bowl. When they are well mixed, slowly stir in the cream and the juices. Put the cooked tart shell back into the oven and then pour the filling into it — I find this reduces spillage.

Bake for around 40 to 45 minutes at 350 degrees F or until the filling is set, but still semi−wobbly in the middle (obviously different ovens will cook at different rate so it is good for you to try this tart a couple of times to gauge exactly when you should take it out of the oven).

After cooling for an hour, the semi−wobbly filling will have firmed up to the perfect consistency; soft and smooth. If you cut it before it has had time to rest it will pour out or be extremely gooey.

You can dust it with a little icing sugar, if you wish. Serve with a huge pile of fresh raspberries or strawberries. Whatever you decide to serve it with should be quite simple so that you let the tart do the talking.

Lime Mousse Tart

Crust
1 1/4 cups graham cracker crumbs (about 12 (5 x 2 1/2−inch crackers)
5 tablespoons unsalted butter, softened
1/4 cup granulated sugar

Mousse
1 cup granulated sugar
1/4 cup cornstarch
1/4 teaspoon salt
2 cups milk
1 1/2 teaspoons unflavored gelatine (less than 1 envelope)
3 large egg yolks
3 tablespoons unsalted butter
1 tablespoon finely grated fresh lime zest
1/2 cup fresh lime juice
1 cup well−chilled heavy cream

Make crust: Preheat oven to 325 degrees F.
In a 9 1/2−inch springform pan blend all crust ingredients with your fingertips until combined well and press evenly onto bottom and 1 inch up side of the pan. Bake crust in the middle of the oven 10 minutes and transfer to a rack to cool.

Make mousse: In a heavy saucepan whisk together sugar, cornstarch and salt, and gradually whisk in milk, whisking until mixture is smooth. Sprinkle gelatine over milk mixture and let stand 1 minute to soften gelatin.
In a small bowl whisk together yolks. Bring milk mixture to a boil over moderate heat, whisking constantly, and remove pan from heat. Gradually whisk about 1 cup milk mixture into yolks and whisk yolk mixture into remaining milk mixture. Simmer custard, whisking, 3 minutes (custard will be thick but pourable) and remove pan from heat. Whisk in butter, zest and lime juice until combined and let custard stand 10 minutes to allow flavors to blend.

Pour custard through a fine sieve into a metal bowl, pressing custard with a rubber spatula if necessary, and set in a large bowl of ice and cold water. Cool custard, stirring occasionally with a rubber spatula until thick but not completely set (custard should mound slightly when dropped from a spoon), about 20 minutes.

In a bowl with an electric mixer beat cream until it holds soft peaks. With a large rubber spatula gently fold whipped cream into custard and gently spoon mousse into crust. Chill tart, uncovered, until set, about 4 hours. Tart keeps, covered and chilled, 3 days.

Olive Oil Tart Dough

This dough is great because it doesn't need to be rolled out. Also, it contains no cholesterol and very little saturated fat.

1 1/4 cups unbleached all-purpose flour
1/2 teaspoon kosher salt
1/3 cup extra-virgin olive oil
2 tablespoons ice water

S’Mores Tart

**Crust**
1/2 stick (4 tablespoons) unsalted butter
1 cup graham cracker crumbs
2 cups miniature marshmallows

**Filling**
1/2 stick (4 tablespoons) unsalted butter
6 ounces bittersweet chocolate, coarsely chopped
3 ounces unsweetened chocolate, coarsely chopped
1 1/2 teaspoons pure vanilla extract
1/2 cup cream (light or heavy, your choice)
3 large eggs
1/2 cup all-purpose flour
1/2 cup granulated sugar
1/4 teaspoon salt

To make the crust, melt the 1/2 stick of butter and combine it with the graham cracker crumbs, stirring together until uniform in texture.

Lightly grease a 9–inch springform pan and gently press the crumb mixture into it, going up the sides by about 1 inch. Scatter the marshmallows evenly over the crust and set aside.

Over the lowest possible heat, melt together the remaining butter and both chocolates. Stir occasionally until completely melted and smooth (about 20 minutes).

Set the oven rack at the upper middle level and preheat the oven to 375 degrees F.

Stir the vanilla into the cream and add to the chocolate mixture, beating at medium speed until thoroughly combined. Beat in the eggs, one at a time.

Stir together the flour, sugar and salt. At medium speed, beat this into the chocolate mixture in two or three batches to allow it to be thoroughly absorbed. Scrape down the sides of the bowl and beat again briefly.

Carefully pour filling over crust, making sure to completely cover marshmallows (you may need to smooth the top of the filling with a spatula). Bake on the upper middle rack at 375°F for 12 to 15 minutes – until the outer edge of the tart looks set but the inside still seems wobbly.

Remove from heat and allow to cool to room temperature before covering loosely with plastic and transferring to the fridge. Allow to chill at least 6 hours before cutting and serving. This keeps in the refrigerator, loosely covered, for several days. It is best served chilled.

Tequila Lime Tart

Crust
About 11 (4 3/4 x 2 1/4–inch) graham crackers
1/4 cup pine nuts
2 tablespoons granulated sugar
1 stick (1/2 cup) unsalted butter

Filling
1 (14 ounce) can sweetened condensed milk
4 large egg yolks
1/2 cup fresh lime juice
1/4 cup gold tequila
2 large egg whites
1 tablespoon granulated sugar

Special equipment: a 9 1/2– to 10–inch tart pan
(1 inch deep) with a removable bottom

Preheat oven to 325 degrees F.

Make crust: Into a food processor crumble graham crackers and finely grind enough to measure 1 1/2 cups. Transfer to a bowl. In food processor pulse pine nuts with sugar until finely ground. Melt butter and cool to lukewarm. Stir nut mixture and butter into crumbs and press evenly onto bottom and up side of tart pan.

Make filling: Squeeze enough juice from limes to measure 1/2 cup. In a large bowl whisk together lime juice, condensed milk, yolks, and tequila until just combined well. In another large bowl with an electric mixer beat whites with sugar until they hold soft peaks. Stir one fourth meringue into milk mixture to lighten and fold in remaining meringue gently but thoroughly. Spoon filling into crust. (If using a 9 1/2–inch tart pan, filling will be mounded and look as if it will overflow, but don’t worry, it won’t.) Bake tart until edges of filling are puffed but not browned and center seems almost set when gently shaken, 25 to 30 minutes.

Cool tart completely on a rack. Chill tart, loosely covered, until cold, about 2 hours, and up to 1 day. Serve tart in wedges with dollops of whipped cream. Garnish with lime slices.

Tiny Lemon Tarts

**Pastry**
3/4 cup butter, softened
1 1/2 cups flour, sifted
6 tablespoons confectioners' sugar
1/2 teaspoon vanilla extract

Preheat oven to 350 degrees F.

Cream butter with flour and confectioners' sugar. Mix until well blended. Add the vanilla extract and again blend thoroughly. Divide dough evenly between 36 miniature muffin tins. Place in freezer for 15 minutes.

Remove from freezer and put 1 tablespoon of cleaned pinto beans in each tin. This will keep dough from shrinking. Place tins in oven and bake for 12 to 15 minutes. Remove from oven and carefully remove beans from crusts.

Reduce oven temperature to 325 degrees F.

Fill each shell gradually until all lemon filling is used. Return to oven and bake for another 12 to 15 minutes or until just firm. Remove from oven and place in a draft-free area. Cool.

Carefully remove shells from tin, loosening edges with thin knife. Place shells on cooling racks. When completely cool, frost tops with pastry brush.

**Filling**
3 eggs, slightly beaten
1 1/2 cups granulated sugar
2 tablespoons flour
1/2 teaspoon baking powder
1/4 cup lemon juice
1 1/2 teaspoons lemon rind

To the slightly beaten eggs, add the sugar, flour, and baking powder. Blend well with spatula. Add the lemon juice and lemon rind, and continue to blend only with a spatula until well combined.

**Frosting**
2/3 cup confectioners' sugar
2 tablespoons lemon juice

3/4 teaspoon freshly ground black pepper or more to taste
1 cup crème fraîche
1/2 cup half−and−half
3 large eggs
1 to 2 tablespoons minced fresh chives
1/4 teaspoon dry mustard
1 cup grated pepper jack or sharp Cheddar cheese (about 1/4 pound)
Paprika

Preheat oven to 375 degrees F.

Warm oil in a heavy, ovenproof 8− to 9−inch skillet over medium heat. Add potatoes and onion, stir to coat with oil, sprinkle in at least 1/2 teaspoon each salt and pepper, and pat mixture down. Par−cook potatoes, scraping up and patting back down several times, until golden, somewhat sticky, crispy in spots, and reduced in volume by about half, about 15 minutes. Remove from heat. Press potato mixture down around bottom and up edge of skillet to form a crust about 1 1/2 inches high. A spoon helps in shaping it evenly.

Whisk together crème fraîche, half−and−half, eggs, chives, dry mustard and 1/4 teaspoon each of salt and pepper.

Sprinkle cheese into potato crust, then pour crème fraîche mixture over cheese. Dust with paprika. Bake 25 to 35 minutes, until puffed and lightly browned and a small thin knife inserted in center comes out clean. Let sit at least 10 minutes to firm a bit before slicing. Cut into wedges and serve.
Italian Zucchini Crescent Pie

Yield: 6 to 8 servings

3 tablespoons butter or margarine
4 cups thinly sliced zucchini
1 cup chopped onion
1/2 cup chopped fresh parsley or 2 tablespoons dried
1/2 teaspoon salt
1/2 teaspoon pepper
1/4 teaspoon garlic powder
1/4 teaspoon dried basil
1/4 teaspoon dried oregano
2 eggs, beaten
8 ounces (2 cups) mozzarella cheese, shredded
1 (8 ounce) can crescent dinner rolls
2 teaspoons prepared mustard

Preheat the oven to 375 degrees F.

In a large skillet, melt the margarine over medium heat. Add the zucchini and onion and sauté until the onion is golden, about 10 minutes. Remove from the heat. Stir in the parsley, salt, pepper, garlic powder, basil, and oregano. Combine the eggs and mozzarella and stir into the zucchini mixture.

Place the crescent rolls in an ungreased 10–inch pie plate. Press over the bottom and up the sides to form a crust. Spread the crust with the mustard. Pour the vegetable mixture into the crust. Bake for 18 to 20 minutes or until the center is set. If the crust begins to brown before the center is set, cover with aluminum foil. Let stand for 10 minutes before serving.
Jicama Pie

1 (1/2 pound) jicama, peeled and shredded
1/2 cup sherry
1/2 cup water
3/4 cup plus 2 teaspoons granulated sugar, divided
6 tablespoons flour
1/4 teaspoon salt
3 egg yolks
2 cups milk, divided
1 cinnamon stick
2 1/2 teaspoons butter, divided
1 (9–inch) pie shell, baked and cooled
1/4 teaspoon ground cinnamon

Combine first three ingredients in small saucepan. Bring to boil; reduce heat. Cover and boil gently 45 minutes or until most of liquid has evaporated. Drain well; set aside.

Mix 3/4 cup sugar, flour and salt in saucepan. Beat yolks and 1 cup milk in small bowl. Stir into sugar mixture. Add remaining 1 cup milk and cinnamon stick. Stir over medium heat until mixture boils and becomes very thick. Discard cinnamon stick. Add jicama mixture to milk mixture. Cook and stir 1 or 2 minutes longer, until mixture is very thick. Stir in 1 1/2 teaspoons butter. Put mixture into pie shell. Sprinkle with cinnamon and remaining 2 teaspoons sugar. Cut remaining 1 tablespoon butter into small pieces and place over filling. Broil pie 3 inches from heat 3 to 4 minutes, or until butter and sugar are melted and bubbly. Watch carefully and do not let crust burn. Cool pie slightly.
