

Helpful Guidelines for Successful Weight Loss

Weight loss should occur when you eat fewer calories than you burn. Increasing physical activity while limiting your calories will increase your rate of weight loss. Increasing physical activity will also help you to maintain your weight after weight loss. Discuss appropriate calorie levels and serving sizes with your dietitian.

- 1. Keep a written food and physical activity journal.
- 2. Weigh yourself once per week at the same time of day, with the same amount of clothing, and on the same scale.
- 3. Eat breakfast everyday and do not skip meals. Skipping meals can lead to extreme hunger, overeating and poor food choices.
- 4. Plan your meals and eat around the same time every day.
- 5. Pick an eating area at home and/or work.
- 6. Turn off the TV and/or computer during meals and snacks.
- 7. Eat slowly. Take 30 minutes for a meal. It takes 20 minutes before you feel full, so wait 20 minutes after your first serving before taking a second serving.
- 8. Eat protein foods first to help you feel full sooner.
- 9. Read food labels to help control portions of food.
- 10. Eat less fat and sugar. Eat more fiber, including fresh fruits/vegetables and whole grains.
- 11. Limit restaurant and fast food meals.
- 12. Don't keep problem foods around the house and/or at work. A problem food is a food that you are likely to eat too much of or too often if readily available.
- 13. Drink at least 8 cups (64 ounces) of liquids per day. Focus on calorie-free, caffeine-free beverages.
- 14. Get adequate sleep each night (7-9 hours).

Food Preparation

- ➤ Use lowfat cooking methods such as baking, grilling, boiling, poaching, broiling, roasting, steaming or microwaving without additional fat.
- > Avoid or limit frying.
- Place meat on a rack so the fat will drain off during cooking.
- Remove skin from poultry before cooking.
- Trim all visible fat from food (i.e. poultry and meat) before cooking.
- > Use non-stick cookware or cooking sprays.
- Use egg whites or egg substitute in place of whole eggs.
- > Season food with spices, butter flavoring (such as Butter Buds[®]), lemon or low-fat dressings.
- Limit high-fat sauces or gravies such as sour cream, regular salad dressings, full-fat gravy, and cream or cheese sauces (such as Hollandaise or Alfredo sauce).
- ➤ Use a sugar substitute in place of sugar. Replace sugar in recipes with a sugar substitute that can be used in baking or cooking.

Restaurant Eating/Take-Out

- Limit appetizers, bread with butter, and chips.
- > Select a salad with light dressing on the side or broth-based soup as your first course.
- ➤ Choose foods prepared using lowfat cooking methods.
- ➤ Request sauces, dressings, and gravies on the side.

- ➤ Place a portion of your meal in a take-home container before you start eating.
- > Share an entrée with a friend.
- Consider purchasing a pocket-sized calorie counter book to help make healthy choices.

Food Groups and Recommended Portion Sizes

Meat/Protein	Bread/starch	Fruit
(2-3 servings per day)	(4-8 servings per day)	(2-4 servings per day)
1 serving = 3 ounces meat/poultry/fish; 1½ cups cooked dry beans/lentils/split peas; ½ cup tofu; 2 eggs	<pre>I serving = ½ cup rice/pasta/cereal; 1 slice bread; ½ small bagel</pre>	I serving = 1 small piece fruit; ½ cup cut-up fruit; ½ cup fruit juice
Choose more often	Choose more often	Choose more often
Poultry without skin	Barley	Fresh fruits
Chili without meat	Whole-grain bread	Fruit canned in water or juice
Egg whites or egg substitute	Bulgur	Frozen fruit without added
Baked fish	Unsweetened cereal	sugar

Tofu	Corn tortillas	
Tempeh	Plain popcorn	
Meat substitutes (soy based)	Oatmeal	
,	Baked chips	
Choose less often or avoid	Choose less often or avoid	Choose less often or avoid
Bacon	Biscuits	Sweetened applesauce
Sausage	Chips	Fruit juice
Hot dogs	Sweetened cereal	Fruit canned in syrup
Fried chicken	Corn bread	Fruit roll ups
Poultry with skin	High fat crackers	Fruit sorbet
Chili with meat	French toast	Avocado
Fried eggs	Granola	Coconut
Fried fish	Pasta with cream sauce	
Fish sticks	Macaroni and cheese	
Marbled red meat	Macaroni salad	
Peanut butter	Muffins	
Lunch meat, bologna, salami	Pancakes	
Nuts and seeds	Pizza	
Canned tuna in oil	Buttered popcorn	
Oil-packed sardines	Stuffing	
	Crisp taco shells	
	Waffles	

Food Groups and Recommended Portion Sizes

Vegetable (3 or more servings per day)	Dairy/Milk (2-3 servings per day)	
1 serving = $\frac{1}{2}$ cup	1 serving = 8 ounces milk or yogurt; 1 ounce cheese; ½ cup cottage cheese	
Choose more often	Choose more often	
Fresh, frozen or canned vegetables (Prepared without added fat) Broth-based vegetable soups	Nonfat or lowfat (1%) milk Nonfat or lowfat cheese Nonfat or lowfat cottage cheese Light nonfat fruit yogurt Nonfat or lowfat plain yogurt	
Choose less often or avoid	Choose less often or avoid	
Creamed vegetable soups French fries Fried or tempura vegetables Vegetables in cream sauce Hash brown potatoes Mashed potatoes made with butter Potato salad	Cheese Chocolate milk Ice cream / ice milk Whole or reduced fat 2% milk Pudding Regular fruit yogurt Frozen yogurt	

Fats (Use sparingly)		
1 serving = 1 teaspoon butter or oil; 1 Tablespoon reduced-fat margarine/mayonnaise		
Bacon Grease	Mayonnaise	
Butter	Oil	
Cream	Salad Dressing	
Lard	Shortening	
Margarine	Sour Cream	

Empty Calorie Foods

(These foods are high in fat and/or sugar, and low in nutrients)

(These foods are high in fat and/of sugar, and fow in nutrients)				
Beer	Doughnuts	Kool-Aid [®] / Tang [®]	Shakes	
Candy ?	Frosting	Liquor	Sherbet	
Cake Z	Fruit-flavored drinks	Marmalade	Sodas	
Chocolate	Fried foods	Olives	Sweet rolls	
Coconut	Gravy	Pastries	Sweet pickles	
Cookies	Half and half	Pies	Syrup	
Cream	Honey	Preserves	Tartar sauce	
Cream cheese	Jam	Popsicles	Whipped cream	
Cream sauce	Jell-O [®]	Salt pork	Wine	
Croissants	Jelly			

(Any food of drink that has 20 calories of less per serving)		
Broth	Mineral water	
Coffee/Tea (regular or decaffeinated)	Salsa	
Diet soda	Spices	
Fat-free salad dressing	Sugar-free gelatin	
Fat-free mayonnaise	Sugar-free syrup	
Garlic	Sugar substitutes	
Lemon	Reduced-sugar or sugar-free jam or jelly	
Lime	Vinegar	

Tips for Serving Sizes

- > 3 oz meat, poultry or fish is approximately the size of a "deck of cards."
- ➤ 1 oz of cheese is equivalent to 4 playing dice, 1 slice American cheese, or 1 mozzarella stick.
- ➤ 1 serving of fresh fruit is approximately the size of a tennis ball.
- > 3 oz baked potato is approximately the size of a small computer mouse.

- Use measuring cups to measure both dry and liquid foods. This will help you learn what a serving size looks like on your plates, bowls, and glasses.
- Consider using smaller plates (for example, salad plates), bowls, and glasses to help control serving sizes.
- Use a food scale to measure cooked meats, nuts, and dry foods.

Common Measurements		
3 tsp = 1 Tbsp	$4 \text{ oz} = \frac{1}{2} \text{ cup}$	
$4 \text{ Tbsp} = \frac{1}{4} \text{ cup}$	8 oz = 1 cup	
$5\frac{1}{3}$ Tbsp = $\frac{1}{3}$ cup	$1 \text{ cup} = \frac{1}{2} \text{ pint}$	

How to Read Food Labels

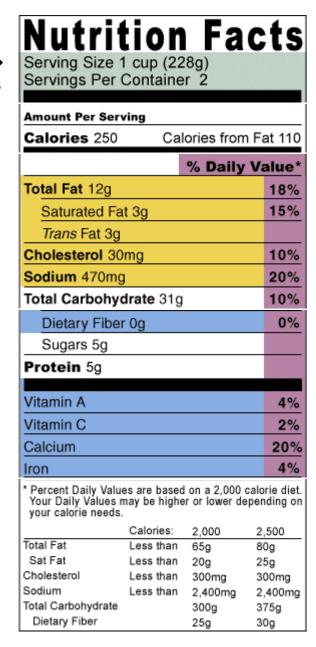

Start here →

<u>Serving size</u>: The nutrition facts are for one serving

<u>Servings per container</u>: Pay attention to how many servings you are eating.

Limit calories, total fat, saturated fat, trans fat, cholesterol and sodium.

Choose foods that are high in dietary fiber, vitamin A, vitamin C, calcium and iron.

← % Daily Value is based on a 2,000 calorie diet. Discuss appropriate calorie levels with your dietitian.

- 5% or less is low
- 20% or more is high

Compare food labels for the lowest calories, fat, and sugar:

- ➤ Limit TOTAL FAT to 3 grams or less per serving
- ➤ Limit SUGAR to 5 grams or less per serving
- ➤ In milk and yogurt products, limit SUGAR to 12 grams or less per serving
- ➤ Choose starches with DIETARY FIBER 3 grams or more per serving

Tips to Become More Physically Active

- Consult your doctor before beginning any exercise routine.
- ❖ Begin slowly and work toward a goal of 30-90 minutes of moderate intensity activity most days of the week.
- Find activities you enjoy and spread physical activity throughout the day.
- Reward yourself for reaching your goals. Some examples are:
 - Buy yourself new sports equipment
 - Ask your spouse to take the kids for an hour
 - Visit a friend
 - Spend more time on your favorite hobby
 - Buy yourself some flowers or a plant
 - Enjoy a long hot bath
- ❖ If the weather is bad, have a backup plan. For example, take a walk in the local shopping mall.
- ❖ Wear comfortable and supportive shoes for walking. Leave your sneakers near the door to remind yourself to walk.
- Exercise before work.

OR

Bring a change of clothes to work and head straight for exercise on the way home.

- Schedule exercise on your calendar.
- Try to develop the habit of integrating more activity into your daily routine.
 - Take the stairs instead of the elevator
 - Park farther away from work or the store
 - Walk instead of driving to work or the store
 - Take one item up or down the stairs at a time instead of everything in one trip
- Vary your activity to avoid boredom. Listen to music while you exercise or exercise with a friend.
- Use a pedometer to keep track of your steps.
